THE WORLD'S RAILWAYS

The Prussian department of public works has just published its report on the world's railroads, bringing its data down to the end of 1912. It finds that there are 650,000 miles of road, which is about 6.000 miles more than the London Times statistician found as of the same date.

A little more than half the world's mileage is in the two Americas, and the United States, with Germany has only 38,000 miles, yet

Belgium, which is the most ations between himself and the commerce have one master and not seven miles to every 100 square will spend the summer with them. ryland member, and the latter's many"-to settle this question for miles. MAIL BAG (From The Times Readers.)

To the Editor of THE TIMES Pictures of Creation at Belasco Thea ter are apt to mislead some people it that they misrepresent labor. One picture shows a meeting of the Industrial Workers of the World and a crowd of people. This is said to repre-sent a need of Christianity. I don' school's colors, and many pennants and see where the need comes in.

W. is an organization of working peo-ple for the purpose of defense against exploitation and slave labor. They believe trade unions are not effective Theirs is a cause of tight against wrong. Therefore Christianity should recognize the fight of the workers against their oppressors. Another picture shows Si stretching forth his great arms as stroying the temple and people. shows Samso picture is said to represent Socialism

This is a wrong idea. The picture typi-fles capitalism. Capitalism is destruc-tive. It enslaves, robs, and destroys. I do not mean capital. The capitalist class concentrating its wealth in trusts exploiting the people is called capital-sm. It is not going to break the trusts bur it is going to destroy itself. Those who understand socialism say hat it is constructive, evolutionary and nevitable. Only resistance to it is lestructive. HENRY S. PRISBIE,

THE YOUNG LADY ACROSS THE WAL

We asked the young lady across the way if she thought the new styles carried any evils in their train and she said street dresses weren't made that way any more and were perfectly

Truths By Women Who Know Home Gives Help to The House of Mercy

In the House of Mercy fallen girls are uplifted and given a view of a higher moral plane of life, there they are taught to take care of themselves and their children, who are allowed to remain with them. The welfare of the children is considered important, and is looked

Mrs. Josephine E. Brown, wife of Justice H. B. Brown and president of the House of Mercy, relates in this article the noble purpose of this charity and the method used in carrying it out, besides telling of some of the fine women of whom Washington should be proud, who have made this rescue work possible.

. By MRS. IOSEPHINE E. BROWN.

The House of Mercy, Park road and Twentieth street, is distinctly an Episcopal charity, under the auspices of a board of trustees, of which the bishop of Washington is president, and a board of lady managers. It is an interesting fact to state that this charity is the only home of its kind under the direction of the Episcopal Church south of Jersey City.

Service . This is a service of

The object of this institution, which is open to all, is to unlift fallen girls by trying to raise them to a higher moral plane by teaching them, through work, how to help themselves, whereby they may become honest, useful women. I desire to call attention, especially, to one phase of this work decidedly unusual in rescue work mother and one phase of this work decidedly unusual in rescue work, mother and child are kept together with the expectation of inspiring, often with the most satisfactory results, the mother love for the unfortunate off-spring. A large majority of the young women who enter the House of Mercy are under age, some so young as fourteen, and they are received both before and after maternity. No girl is allowed to enter the institution after a second offense, consequently, as it can be readily seen that this house is not a home for the deprayed, but for the confiding, unfortunate, young girl.

Inder the most watchful caye the incates are taught cookins, inumity work, sewing, house work, and the care of children. It is the policy of Deaconess Yeo, to whom all praises

Pearoness Yeo. 1: When all praise is due for her spience; and efficient management of the hour for a period of years, and her staff, to make the daily life of each moute as home-like as nossible. Daily Routine at Home. Wrile the Ciscipling is not unduly strict, prompt obedience is required of ell. The roudne of the daily life is as follows: The household rises at 6 a. m., chapel is at 7:30, after which the regular work of the house begins. Dinner is at 12:30, and then there is recreation until 2 p. in.

Supper is served at 5:30, and the supper is served at 5.00, and the evenings are spent in various ways, but always closing with chapel at 8:30, which service the chaplain, the Rev. William Tayloe Snyder, conducts once a week. Deaconess Yeo conducts services at other times.

The welfare and happiness of the children as well as the mothers is The welfare and happiness of the children as well as the mothers is duly considered, and in many cases it is not always deemed expedient by those in authority for the child to be taken by the mother when she leaves the home. Under these conditions she is given the privilege of leaving the baby, for whose care she is required to pay a small sum. In this way the infant continues to receive the same tender, watchful solicitude until the mother is able to firmly establish herself.

The origin of the euphonic name. House of Mercy, is unknown to me, therefore the brief history of this institution, which it is my pleasure

institution, which it is my pleasure to write, will only date back as far as its reorganization by the first Bishop of Washington, the late Henry Y. Satterlee. In 1902, the house, 2408 K street, which had been closed for some months was reclosed for some months, was re-opened with a new board of managers, of which Mrs. Harriet Lane Johnston was elected president; Johnston was elected president. Mrs. Anton Heger, vice president. Mrs. Hammond, secretary, and Mrs. McGowan, treasurer. The house, which was found very much

out of repair, was immediately in order, and this splendid band women went to work with a will to raise money for this inspiring work. Entertainment Starts Fund

The first entertainment given by ther was a "kettledrum," at the New Willard, through the generosity and interest of the owner and managers. This was the beginning in Washington of entertainments a hotels for charity, and the sum realized was handsome enough to cause great exultation to these earnest women.

After the death of its first dis-

tinguished president, Mrs. Henry Johnston, Mrs. John McGowan became president of the board managers of the House of Mercy, and for some years she conducted its affairs ardently and ably. on her retirement from office, Mrs. Julian-James was elected president, and she, not being satisfied with well doing." did even more. In 1911, during her presidency, she presented the diocese with a superblot with the understanding it was to be used for a new House of Mercy, and about a year later, without any financial aid from any source, she built the present handsome home, with the single exception of the infirmary. And I wish I could say from the house tops, ail praise to this generous noble woman for her wonderful act. The tablet, which marks the entrance hall is notable for its extreme modesty of purpose. It reads as follows:

"In memory of those whose names are inscribed on the Sun Dial, Cathedral Close, A. D. 1910."

Old Building Is Sold. on her retirement from office, Mr.

Old Building Is Sold.

When Mrs. James built the new House of Mercy it was with the understanding that the old building was to be sold, and the amount thus realized added to the endowment fund. This compact has been faithfully carried out, and the income of the institution thereby considerably enriched. The plans for the new building were made by Nathan Wyeth, who kindly donated his services, and the builder, Charles A. Langley, followed his fine example.

The money toward building the

infirmary was raised by the almost superhuman efforts of Mrs. Mc-Gowan, to whom every member of the board feels deeply indebted. The plate on the door of the in-firmary reads as follows: "Infirmary erected by Board of Lady Managers, Association for Works of Mercy, 1911, and other

friends.
In the attractive chapel, where household gathers twice a day or worship, are a number of me-morials, but none of them more venerated than the one presented by the board, a number of years ago, in memory of Mrs. Theodorus Balley Myers, a beloved gentlewoman whose generosity and kind ness will live while the House of Mercy lasts, "though lost awhile to those who revere her memory.

MRS. JOSEPHINE E. BROWN.

The following is the list of the officers and board of managers. Honorary president, Mrs. Julian James; president, Mrs. Henry B. Brown; first vice president, Mrs. Charles Henry Butler; second vice president, Mrs. Van Reypen; secretary, Mrs. Randall Hoes; treas-urer Miss Katherine Mimmack. retary, Mrs. Randall Hoes; treasurer Miss Katherine Mimmack.
